Some time ago for Saturday we put out two lots of LACE CURTAINS "just to advertise." We sold a few less than two hundred pairs, many of them other than the ones we advertised. A good advertisement, wasn't it?

FOR SATURDAY we have FOUR DIFFERENT LOTS OF LACE CURTAINS. The prices speak for themselves. As we said before, the less we sell of these at these prices the better we are off.

Many Children's Shoes force the pliable, growing bones and muscles of the feet into unnatural shapes.

Educators correct this fault by being built on nature-shaped lasts, which give the foot perfect freedom, at the same time giving it the proper support.

The oak soles provide lightness, flexibility and wear, while the upper leathers are the highest grade.

We have incorporated some original and exclusive patterns in our Educators this Spring, with the result that they are better than ever, both in appearance and wear.

This Space is Controlled by Central Labor Union of Barre and Vicinity.

Union men should get their wives to assist them. There is nothing which marks the change in the general estimate of Trades Unionism as the attitude of women thereto. The Union man's wife holds her head high and looks the world in the face confidently and proudly as she says: "My husband is a member of the Union and his household is for the Union first, last and all the time." If the husband gives his money to the wife she ought to spend it in such a way that she will be benefited, and she will if we remind her that one of the chief aims of organized labor is the abolishment of sweat-shops and child labor— evils that every woman in the land ought to be anxious to stamp out.
